MINI-STAY LLC PROGRAMME

At Lakeland Language Centre, our mini-stay programmes offer students a fully immersive English language experience. We create a space where students feel encouraged to speak, share ideas, and engage with English in real-world contexts.

Our lessons are designed to get students talking confidently, using interactive methods that make learning fun and dynamic. With the help of latest technology, multimedia tools, and creative activities, our teachers turn every class into an exciting opportunity to learn.

Beyond the classroom, students engage in a comprehensive programme of cultural activities and excursions, exploring Irish history and traditions. To further enrich this experience, students stay with welcoming host families, allowing them to practice English in a comfortable, home-like setting while experiencing Irish daily life.

We'd be delighted to discuss how we can customise our programme to meet the specific needs of your agency and students, ensuring a memorable and enriching stay in Ireland.
